Hampton Roads Oncology Updates: Hot Topics in Oncology 2021

There have been significant advances in the treatment of cancers. Learning more about available clinical data and how to incorporate that data into clinical practice, are of the upmost importance when providing the best care to patients with cancer. This conference will help community healthcare professionals manage the treatment and care of patients with cancer.

This conference is designed for oncologists, primary care physicians, pathologists, surgeons, gastroenterologists, pharmacists, physician assistants, nurse practitioners, and other interested health care professionals.
