## ABOUT CAHON

Founded by Chinese American Hematologists and Oncologists in 2005, the primary missions of CAHON are to foster communications amongst Chinese American medical professionals for the delivery of high-quality health care to patients with neoplastic and hematological diseases, and to promote medical information exchange between the United States and China in the field of hematology and oncology. CAHON strives to serve as a bridge among its members and between Chinese and American Hematology-Oncology communities for medical and educational exchange.

## SAVE THE DATES!

### CAHON Community Oncology Forum

February 15, 2020 • 7:00 am – 12:05 pm  
Hyatt Regency Clearwater, Clearwater (Tampa), Florida  
For more information and to register, visit <http://bit.ly/COF2020>.

### 7<sup>th</sup> Immunotherapy of Cancer Conference

April 2 – 4, 2020 • Munich, Germany  
[www.itoc-conference.eu](http://www.itoc-conference.eu) CAHON

### CAHON 2020 Semi-Annual Reception and Symposium (During ASCO)

May 30, 2020  
Willis Tower  
233 S Wacker Drive  
Chicago, IL 60606

### CAHON 7th Annual New York Oncology Forum (NYOF) 2020

November 2020, exact date TBA

## CAHON MEMBERSHIP

Apply to become a CAHON member at [www.cahon.org](http://www.cahon.org).

### Value of a CAHON Membership

By joining CAHON you will have access to:

- A growing network of Chinese American professionals working in your field;
- A private WeChat group where you can submit clinical questions to respected colleagues who are knowledgeable in specific areas of hematology and oncology;
- Reduced or waived registration fees for all CAHON events and meetings along with priority hotel reservations;
- Members-only section of the CAHON website including the member directory; and
- Travel award opportunities.

### Member Categories

Active Membership, Associate Membership, Allied Membership

Visit [www.cahon.org/membership](http://www.cahon.org/membership) for more information.

## THE STORY BEHIND THE CAHON LOGO

CAHON'S logo was designed by Drs. Weijing Sun, Ke Liu, and Jeffrey Ye, under the supervision of the CAHON Board. The design has the following elements and takes the following considerations:

- The overall shape represents the globe.
- The blue, white, red and yellow represent the colors of two nations' flags: China and the US.
- The yellow and red stripes above the blue, represent bridges. One of CAHON's key missions is to serve as a bridge between Chinese American Hematology-Oncology communities for medical and educational exchange.
- The white space is in the shape of a heart. The hearts of our members continue to drive our mission to provide high quality patient care to everyone.

# Striving to outsmart cancer. Together.

At AbbVie, we build bonds with oncologists, patients, payers, advocacy groups, health authorities, and other pharmaceutical companies, because we know that advancing the science of this devastating disease is not something that one person, or even one company, can do alone.

Together we can conduct research that deepens our understanding of the disease and its pathways, to ultimately develop new molecules that make a transformational improvement in cancer care.

## Bringing Transformational Medicines to Patients Through Innovation

- Exclusively focused on developing biologics of novel or highly differentiated
- Therapeutic areas of immuno-oncology and autoimmune diseases.
- More than 10 clinical and pre-clinical stage drug candidates
- Fast-to-PoC (Proof-of-Concept) and Fast-to-Market development strategies
- Internal R&D and global partnerships.
- On track to become a fully integrated end-to-end global biopharmaceutical company
- Well-recognized by capital markets

# REVOLUTIONARY SCIENCE MEETS TRANSFORMATIVE CANCER THERAPY

Seattle Genetics is dedicated to improving patient outcomes with transformative therapies targeting cancer.

We are an emerging multi-product, global biotechnology company and the industry leader in antibody-drug conjugate technology.

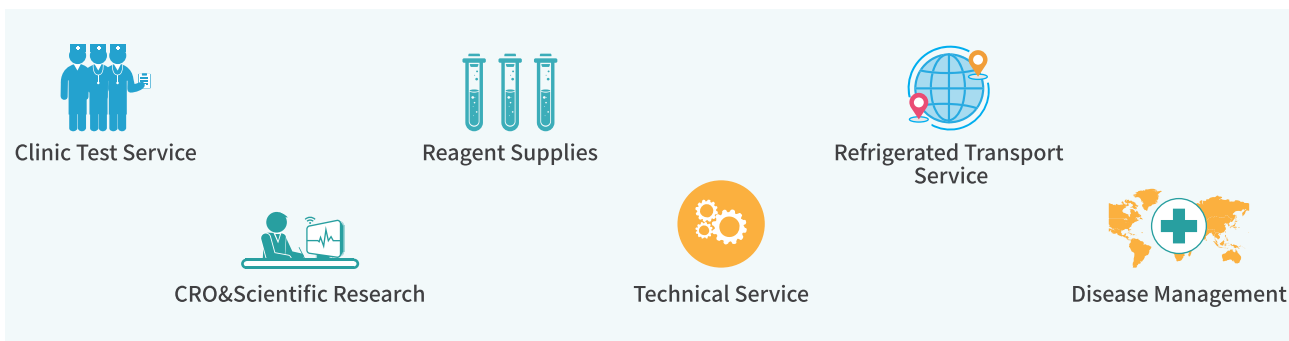

## The Navigator of Hematology Diagnostic Services in China

### About Us

Kindstar Global Technology, Inc. (hereinafter referred to as “Kindstar Global”) is the first and biggest leading-edge medical hematology diagnostic service group in China. It has been committed to leading China’s hematology diagnostic technology and services, and improving China’s specialty diagnosis and individualized health. With its service tenet “Patients’ benefit is our priority and doctors’ need come first”, Kindstar not only follows the international standards and industry guidelines and introduces advanced technology and equipments, but also devotes to self-innovation and develops new diagnostic technology and methods. Kindstar has provided an all-round, advanced and accurate hematology diagnostic service to China’s top, specialized and comprehensive hospitals.

### Our Services

- Clinic Test Service
- Reagent Supplies
- Refrigerated Transport Service
- CRO&Scientific Research
- Technical Service
- Disease Management

### Our Accomplishment

- ◆ Test samples: >3.6 million/ year  
Long-term cooperation with China's TOP20 hospitals
- ◆ Laboratory area: 38000 m<sup>2</sup>  
Serving over 90% of Level III hospitals in China
- ◆ Test Items: >3000  
Covering 90% of China's provinces
- ◆ Management team worked in the US academic institutes for more than 10 years
