

Gang Chen, MD, PhD
Clinical Fellow, Hematology Oncology, National Cancer Institute
Abstract: Combined immunotherapy in prostate cancer

Q. Bill Gai, MD, Ph.D.
Attending Oncologist, Kaulert Regional Cancer Center, Westminster, MD
Abstract?

Jin He, MD, PhD
Assistant Professor of Surgery and Oncology, JHU
Abstract: The Impact Of Neoadjuvant Immunotherapy On Surgical Outcome In Locally Advanced Pancreatic Cancer After Chemotherapy And SBRT

Kai He, MD, PhD
Assistant Professor, OSU
Abstract: Prediction of neoantigen burden with a cell cycle-related RNA expression signature in lung adenocarcinoma.

MeiXiao Long, MD, PhD
Assistant Professor, OSU
Abstract: Ibrutinib Represents a Novel Class of Immune Modulating Therapeutics that Enhances the Survival of Activated T cells and Reverses CLL Cells Mediated Immunosuppression.

Bo Lu, MD, PhD
Professor (Tenured) of Radiation Oncology, Thomas Jefferson University
Abstract: SMAC mimetic Debio 1143 and Ablative Radiation Therapy Synergize to Enhance Anti-tumor Immunity Against Lung Cancer

Edward Wenge Wang, PhD
Assistant Professor, City of Hope

Jingsong Zhang, MD, PhD
Associate member, H Lee Moffitt Cancer Center
Abstract: Integrating evolutionary dynamics into treatment of metastatic castrate-resistant prostate cancer (mCRPC): second interim analysis of the adaptive abiraterone study (NCT02415621)
