ABOUT CAHON

Founded by Chinese American Hematologists and Oncologists in 2005, the primary missions of CAHON are to foster communications amongst Chinese American medical professionals for the delivery of high-quality health care to patients with neoplastic and hematological diseases, and to promote medical information exchange between the United States and China in the field of hematology and oncology. CAHON strives to serve as a bridge among its members and between Chinese and American Hematology-Oncology communities for medical and educational exchange.

THE STORY BEHIND THE LOGO

CAHON'S logo was designed by Drs. Weijing Sun, Ke Liu, and Jeffrey Ye, under the supervision of the CAHON Board. The design has the following elements and takes the following considerations:

- The overall shape represents the globe.
- The blue, white, red and yellow represent the colors of two nations' flags. China and the US.
- The yellow and red stripes above the blue represent bridges. One of CAHON's key missions is to serve as a bridge between Chinese American Hematology-Oncology communities for medical and educational exchange.
- The white space is in the shape of a heart. The hearts of our members continue to drive our mission to provide high quality patient care to everyone.
