And Oncologist Network  
555 East Wells Street, Suite 1100  
Milwaukee, WI 53202

Dear Network Members,

On Behalf of the Sandra and Malcolm Berman Cancer Institute at the Greater Baltimore Medical Center, we would like to thank you for the generous donation of 2000 personal protection equipment (PPE) for our staff. These supplies will be used by our clinical staff conducting procedures with cancer patients. As you know, this virus is most dangerous to individuals with compromised immune systems and not having enough PPE's in these areas is just not an option.

We are truly grateful for your thoughtful and generous donation.

Sincerely,

Michael Stein  
Executive Director of Oncology Services
